Independent Suspension

After years of research Champion is now proud to announce a new era in suspension technology, our Comfort Ride Trike CRT™ suspension. This new Independent Suspension features high pressure gas shock absorbers, forged upper and lower control arms and high pressure cast components, all adding strength and reliability while reducing weight. Champion's CRT™ independent suspension shares a common body with our rigid axle trike, and has the same extra large trunk space Champion customers have been accustomed to. With the introduction of our independent suspension, In addition to our standard "Zero-Flex" Rigid Axle, you now have the opportunity to select... not settle, when purchasing your new trike.
